RMTD Increases Seasonal Weekend Service to Amazon on Shepherd Trail

Beginning Saturday, November 14th, the Rockford Mass Transit District (RMTD) will provide additional early morning and late afternoon service on weekend routes serving the Amazon facility on Shepherd Trail during the upcoming holiday season. The additional service will consist of two routes connecting passengers from the east and west sides of Rockford to Amazon's distribution facility on Shepherd Trail. The routes will operate on Saturdays and Sundays for six weeks, from Saturday, November 14th through Sunday, December 20th.

Each route will provide morning and late afternoon trips between the Downtown Transfer Center and the Amazon facility on Shepherd Trail. Morning service will include an outbound trip departing RMTD's Downtown Transfer Center at 4:40 a.m. and arriving at the facility at 5:40 a.m., followed by an inbound trip departing the facility at 5:50 a.m. and traveling to the Downtown Transfer Center. Late afternoon service will follow the same pattern, with trips leaving at 4:40 p.m. from the Downtown Transfer Center and 5:50 p.m. from the facility.

RMTD has partnered with Amazon on the seasonal service to provide the community with an additional option to access employment opportunities more efficiently and affordably. The additional routes are available to customers traveling to or from the Amazon facility on Shepherd Trail as well as any stops in between along the routes.

For a list of additional routes and times, please visit www.rmtd.org
